

UNLIMITED POSSIBILITIES

Whether you're looking for style, performance or innovation, you'll find it in the windows and patio doors of the Architectural Collection, the culmination of more than a century-long commitment to quality and engineering excellence.

These premiere products deliver ultimate design freedom by combining elegant craftsmanship with unlimited selection, architectural authenticity with unmatched performance, and monumental sizes with unexpected precision.

The Andersen Architectural Collection. Windows and patio doors for luxury homes.

E-Series rectangle and trapezoid picture windows and awning windows.

E-Series

WINDOWS AND PATIO DOORS

Windows to Your Imagination. Doors to Your World.

Custom colors. Unlimited design options. Dynamic sizes and shapes. With E-Series windows and patio doors from the Andersen® Architectural Collection, the home you've always imagined can be more than a dream. More than a vision. It can be reality.

E-Series arch and rectangle picture windows. Colonial divided light pattern.

Every E-Series window and patio door is made to your exact specifications, giving you unmatched freedom. You can even work directly with a window specialist to get the product you want with the performance you need.

The inspiration for your home can come from anywhere. The ability to fulfill it comes from E-Series windows and patio doors.

Unlimited Possibilities to Create Your Original.

In the following pages, you'll find a small sampling of what's possible with E-Series products. No matter what you have in mind, E-Series windows and patio doors can help you create your personal vision of home.

E-Series Windows

DOUBLE-HUNG WINDOWS

A double-hung window has two vertically sliding sash (glass panels) in a single frame. Double-hung windows lift open while remaining flush with the wall, making them ideal around patios, decks and walkways. Both top and bottom sash tilt in for easy cleaning.

CASEMENT WINDOWS

Casement windows are hinged windows that open outward to the right or to the left. They're common above kitchen sinks and give you the flexibility to group in stunning combinations. French casement windows feature side-by-side left- and right-opening sash with no center mullion post. Push out casement windows feature a manual lock handle to push open the window.

AWNING WINDOWS

Awning windows are hinged at the top and open outward. They catch breezes from the left or right and are often used above, below or alongside stationary windows. Push out awning windows feature a manual lock handle to push open the window.

You want your home's windows and patio doors to reflect your inspiration, but you also want them to fit your lifestyle. With E-Series products, you have the choices you need for a beautiful blend of both form and function.

E-Series Patio Doors

GLIDING PATIO DOORS

Gliding patio doors have at least one door panel that slides smoothly past another door panel. Choose from our gliding patio or French gliding patio door styles. Both are available with two or four panels.

HINGED INSWING PATIO DOORS

Available with one or two panels, with at least one panel that swings inward, which saves space on balconies, small decks and patios.

HINGED OUTSWING PATIO DOORS

Available with one or two panels, with at least one functioning panel that swings outward, allowing for more usable space inside a room.

BAY & BOW WINDOWS

Bay and bow windows are window combinations that project outward from a home. E-Series bay and bow windows create a focal point that is visually striking.

GLIDING WINDOWS

Gliding windows feature two or three sash, with at least one of the sash sliding past the others. They provide the advantages of double-hung windows with a more contemporary look.

SPECIALTY WINDOWS

Specialty windows are stationary (non-opening) windows characterized by their special shapes, including curves and dramatic angles. They can make a signature statement in your home or provide a delicate lighting accent.

TRANSOMS & SIDELIGHTS

Transom windows go above a door while sidelights flank one or both sides of the door. Alone or combined, they can turn your entry into a focal point while letting more natural light into your home's entryway. Many options are available, including a venting sidelight that allows fresh air into your home even when keeping the door open isn't an option.

E-Series hinged outswing patio door with sidelight. Colonial divided light pattern.

Unlimited Exteriors

E-Series cottage double-hung windows.
Colonial divided light pattern on upper sash.

CUSTOM COLORS

E-Series hinged inswing patio door with arch and rectangle picture windows. Colonial divided light pattern on patio door and arch windows.

Do You Dream in Color?

Color enhances your design, and we believe it shouldn't have to cost more. Start with one of our 50 exterior color options, an industry-leading palette available at no additional cost. Add to that our two-, three- and four-tone exteriors, and set your E-Series windows and patio doors apart from the rest.

Whether your inspiration comes from an autumn leaf, a river-washed stone, a glass of wine or even a classic car, E-Series products bring it to life with their custom capabilities. Additionally, for an added look of distinction, consider one of our seven spectacular anodized finishes.

MULTI-TONE EXTERIORS

Create two-, three- and four-tone color combinations by mixing and matching up to four exterior finish options.

Colors shown:
Colony White and
Black

Colors shown:
Sage, Moss and
Canvas

EXTERIOR COLORS

With E-Series windows and patio doors, you have the freedom to choose 50 exterior colors, or specify a custom color. You can also combine up to four colors for added curb appeal. Or choose one of our anodized finishes for a rich, lustrous metallic appearance.

50 EXTERIOR COLORS

					
Colony White	White	Abalone	Balsa White	Canvas	Maple Syrup

Black	

UNLIMITED CUSTOM COLORS

You shouldn't have to settle for "close enough." We will work with you to develop a custom exterior color that meets your needs.

E-Series arch single-hung window. Custom divided light pattern.

Surrounded in Beauty.

E-Series windows and patio doors are available with a variety of exterior trim options that help take your home from ordinary to extraordinary. It's an ideal way to make every window and patio door an even more attractive part of your home while adding your own personal touches at the same time.

2" brick mould and 1 1/2" sill nose shown on casement

2" adjustable brick mould shown on hinged inswing patio door

3 1/2" backband & bead casing and 1 1/2" sill nose shown on casement

3 1/2" brick mould and 1 1/2" deep sill nose shown on double-hung

2" ovolo brick mould and 1 1/2" deep sill nose shown on double-hung

5 1/2" flat casing and 1 1/2" sill nose shown on casement

3 1/2" flat casing shown on hinged inswing patio door

EXTERIOR TRIM OPTIONS

Featuring intricately defined detail made possible through the use of extruded aluminum, our exterior trim options extend outward from the window or patio door frame, casting a shadow line consistent with true historical applications. Choose from a selection of flat casings, brick moulds and sill nosing. Or design your own custom trim profile. Match or contrast the trim with your window and patio door in any of our 50 exterior colors, custom colors and anodized finishes.

• GLASS •

A Range of Glass Types for a Range of Needs.

For both beauty and performance, E-Series products extend your design freedom to glass and grilles. We offer a multitude of glass options, including High-Performance Low-E4® glass as our standard option. Our exclusive Stormwatch® protection (HarborMaster® systems) for severe weather are perfect for coastal conditions.* In addition, you can choose from stunning decorative glass collections and flexible grille options, or design your own for just the right look.

LOW-E4® GLASS

Standard on all E-Series products. It's up to 45% more energy efficient in winter and up to 57% more efficient in summer.**

LOW-E4® SMARTSUN™ GLASS

It gives you the benefits of Low-E4® glass, plus it helps shield your home from the sun's heat and filters out 95% of harmful UV rays while letting sunlight shine through.

LOW-E4® SUN GLASS

It's tinted for maximum protection from the effects of intense sunlight while providing all the benefits of Low-E4® glass.

Additional glass options are also available. Visit andersenwindows.com/e-series or see your Andersen dealer.

PERFORMANCE COMPARISON OF E-SERIES GLASS OPTIONS

GLASS	ENERGY		LIGHT

Center of glass performance only. Ratings based on glass options available as of March 2017. Visit andersenwindows.com/e-series for ENERGY STAR® map and NFRC total unit performance data.

HEATLOCK® TECHNOLOGY

Our HeatLock® coating can increase the energy efficiency of any E-Series window or door with Low-E4 or Low-E4 SmartSun glass. Applied to the room-side glass surface, it reflects heat back into the home and improves U-Factors, which can help the window or patio door meet ENERGY STAR® requirements.

TRIPLE-PANE GLASS

Three panes of glass combined with Low-E coatings can provide enhanced energy performance. Adding triple-pane glass to one of our windows or patio doors can produce a lower U-Factor than using regular dual-pane glass.

PASSIVESUN™ GLASS

A solution for colder climate zones where higher heat gain is desired. It allows a higher amount of the sun's heat to pass into the home as compared to Low-E4® glass, making it ideal for passive solar applications.

*See your local code official for building code requirements in your area.

**Winter and summer values are based on comparison of E-Series 3866 double-hung window U-Factor to the U-Factor for clear dual-pane

glass non-metal frame default values from the 2006, 2009, 2012 2015 and 2018 International Energy Conservation Code "Glazed Fenestration" Default Tables.

ADDITIONAL GLASS OPTIONS

STORMWATCH® PROTECTION (HARBORMASTER® SYSTEMS)

Designed for impact resistance, these systems use monolithic or insulated laminated glass in combination with structural enhancements to meet or exceed the stringent code requirements of ASTM and TAS testing protocols.*

DECORATIVE AND SPECIALTY GLASS

Select from our decorative glass collections found online at andersenwindows.com/e-series or combine beveled, frosted, grooved, colored or textured glass with three caming options to create your own design. Specialty glass includes tinted glass, spandrel glass and Mapes panels as well as rain, reeded and obscure glass options.

SIMULATED DIVIDED LIGHT

Ovolo

Contemporary

An economical solution featuring permanent interior and exterior grilles without grille spacer bars.

PROFILES: 5/8", 7/8", 1 1/8", 1 1/2" and 2 1/4"

FINELIGHT GRILLES-BETWEEN-THE-GLASS

Shown with 1" contoured profile

Aluminum grilles conveniently placed between two panes of glass for easy cleaning inside and out.

PROFILES: 5/8" flat and 1" contoured

DESIGN YOUR OWN GRILLES

We offer a variety of grille patterns to choose from or design your own with varying lines, curves and shapes to create a truly unique pattern.

TruScene® Insect Screen

Conventional Insect Screen

Screen out the Insects, Not the View.

E-Series insect screens let the beauty of the outdoors in, while keeping even small insects out. Choose from a wide selection of insect screen styles, including options that blend seamlessly with your window.

INSECT SCREEN OPTIONS

TRUSCENE® INSECT SCREEN*

TruScene® insect screens for windows are made with a micro-fine stainless steel mesh that offers 50% more clarity than our conventional aluminum mesh insect screens. TruScene insect screens let in more fresh air and sunlight and keep small insects out.

All TruScene® comparisons are made to a conventional E-Series aluminum insect screen.

WOOD-VENEERED INSECT SCREEN

E-Series interior window insect screens can be veneered in one of our beautiful wood selections, allowing the frame to blend seamlessly into your window.

RETRACTABLE INSECT SCREEN FOR PATIO DOORS**

This insect screen is built with an innovative color-matched housing that hides the insect screen when not in use. It's there when you need it and gone when you don't.

RETRACTABLE INSECT SCREEN FOR WINDOWS

Made specifically for casement and awning windows, this insect screen is a sleek addition to any home. In place, the insect screen keeps insects out. When retracted, it provides a beautiful clear view.

*Additional insect screen options are also available.
Visit andersenwindows.com/e-series or see your Andersen dealer.*

*TruScene® wood-veneered insect screens utilize a different frame profile than other E-Series wood-veneered insect screens.

**Retractable insect screens are available on hinged inswing, hinged outswing and gliding patio doors. See your Andersen dealer for details.

Privacy Options You Simply Have to See.

E-Series blinds or shades between the glass provide the ultimate in practicality for your home. Our systems not only protect the blinds or shades, they also greatly reduce your cleaning time. Which means with Andersen, you have both privacy and convenience at your fingertips.

BLINDS-BETWEEN-THE-GLASS

Blinds-between-the-glass can be added to many of our patio doors and rectangular picture windows. Choose one of four popular colored blinds that are placed between two panes of glass. Control both tilt and raise* conveniently with a single cord.

Tilt, raise and lower with one control cord.*

SYSTEM 3 BLINDS AND SHADES

System 3 Shades

System 3 Blinds

System 3 blinds and shades create a triple-glazed window that provides greater energy efficiency and protects your blind or shade from damage. They are perfect for casement, awning and picture windows, and hinged patio doors. Frames are available in tan, gold, white or optional wood veneer.

• VERILOCK® SENSORS •

Smarter Windows for Smarter Homes

Andersen® E-Series windows and patio doors featuring VeriLock® sensors can now be part of today's connected homes. These patented, wireless sensors not only tell you if a window or patio door is open, but also if it's unlocked.* No other sensors can do that.

MONITORING OPTIONS

With our smart windows and patio doors, you can connect to your home with professional monitoring, self-monitoring or both.*

- With self-monitoring, VeriLock sensors allow you to easily monitor your windows and patio doors with a smartphone or tablet via an app in real time.
- With professional monitoring, we've teamed up with leading security providers to offer professional monitoring services.**

If you're unsure which monitoring method is right for you, VeriLock sensors can be ordered with your E-Series products now and connected to a professional security service or for self-monitoring at a later date.**

HELPS MAXIMIZE ENERGY EFFICIENCY

Windows that are closed, but unlocked, lose air at a rate up to 3x that of a closed and locked window.† VeriLock sensors tell you which windows and patio doors are open or unlocked* so you can help manage air loss.

MAINTAINS WARRANTY

Other sensors require drilling, which can void warranties.

Sash Lock with VeriLock sensor

Visit andersenwindows.com/connect for additional details.

*When properly configured and maintained with a professionally installed security system and/or self-monitoring system compatible with Honeywell® 5800 controls. See your dealer for more information.

**See listing of Andersen preferred providers or contact your dealer for more details. †Based on testing of thirty-two (32) A-Series double-hung windows. Air loss through unlocked windows will vary based on window type and age, pressure differential, temperatures inside and outside the home, altitude and application.

E-Series Windows and Patio Doors

Engineered for Performance, Durability and You.

Most E-Series products meet or exceed ENERGY STAR® performance criteria, which can reduce your energy bills by an average of 12% while helping to protect the environment.*

BUILT STRONG.

E-Series windows and patio doors are made with heavy-gauge, extruded aluminum-clad wood sash and frames. Our thick cladding offers greater structural capabilities than thinner, roll-form aluminum, while providing a superior exterior finish that resists the elements of inclement weather, abrasion and impact.

LOW-MAINTENANCE EXTERIORS.

Baked-on silicone polyester enamel exteriors offer virtually maintenance-free performance and durability. They're warranted for 10 years against chalking and color change and for 20 years against cracking, checking, peeling, flaking, blistering and loss of adhesion.**

PROTECTION FOR COASTAL AREAS.

E-Series windows and patio doors with Stormwatch® protection (HarborMaster® systems) meet building code requirements in many Gulf and Atlantic coast states†

OWNER2OWNER® LIMITED WARRANTY

Most other window and patio door warranties end when a home is sold, but our coverage — 20 years on glass, 10 years on non-glass parts — transfers from each owner to the next. And because it is not prorated, the coverage offers full benefits, year after year, owner after owner.** So it adds real value when you decide to sell your home.

ENERGY-SAVING GLASS FOR ANY CLIMATE.

We have the glass you need to get the performance you want, including a variety of Low-E glass options to help you control heating and cooling costs in any climate, plus glass options that are ENERGY STAR® certified in most climate zones.

DESIGN VERSATILITY.

Extruded aluminum's strength and versatility allow us to offer beautiful made-to-order design solutions for practically any combination of shapes and styles you can imagine. And because our exterior frame, sash and trim components utilize extruded aluminum, our products feature clean, architecturally accurate lines and details to complement your home's style.

10% POST CONSUMER RECYCLED FIBER

Printed on FSC® certified paper, produced using Green-e certified renewable energy, with 10% post consumer recovered fiber.
